100 MILES PER HOUR METER

A close-up photograph of a vintage vehicle's instrument cluster. The central focus is a black circular gauge with a white needle pointing to the 0 mark on a scale that ranges from 0 to 100. The needle is a light-colored, tapered rod. Below the needle, the words "HOUR METER" are printed in white. Underneath the text is a digital odometer display showing the number "43463" in white digits on a black background. To the right of the digits is a small white "H" and a small rectangular indicator window. The gauge is mounted on a dark, textured surface. The overall image has a slightly grainy, vintage quality.

43463 H

P = 110
